- **Connectivity:** Access various data sources seamlessly.
- **Interactive Dashboards:** Create dynamic, interactive visualizations.
- **Real-Time Data:** Keep your insights up-to-date.
- **Mobile Accessibility:** Access dashboards on the go.

How Tableau Works

- **Connect to Data:** Sources, types of data supported.
- **Prepare and Cleanse:** Tools for cleaning and shaping data.
- **Create Visualizations:** Overview of chart types.
- **Share and Collaborate:** Publish and share dashboards.

WHO WE ARE AND OUR GOAL

We are a famous wine company.

Goals To Evaluate:

- Evaluate Cost vs Revenue
- Highest selling Sales reps by region
- Highest Selling Wines and Ratings
- Expenses vs. Sales of our Reps

Our Filters

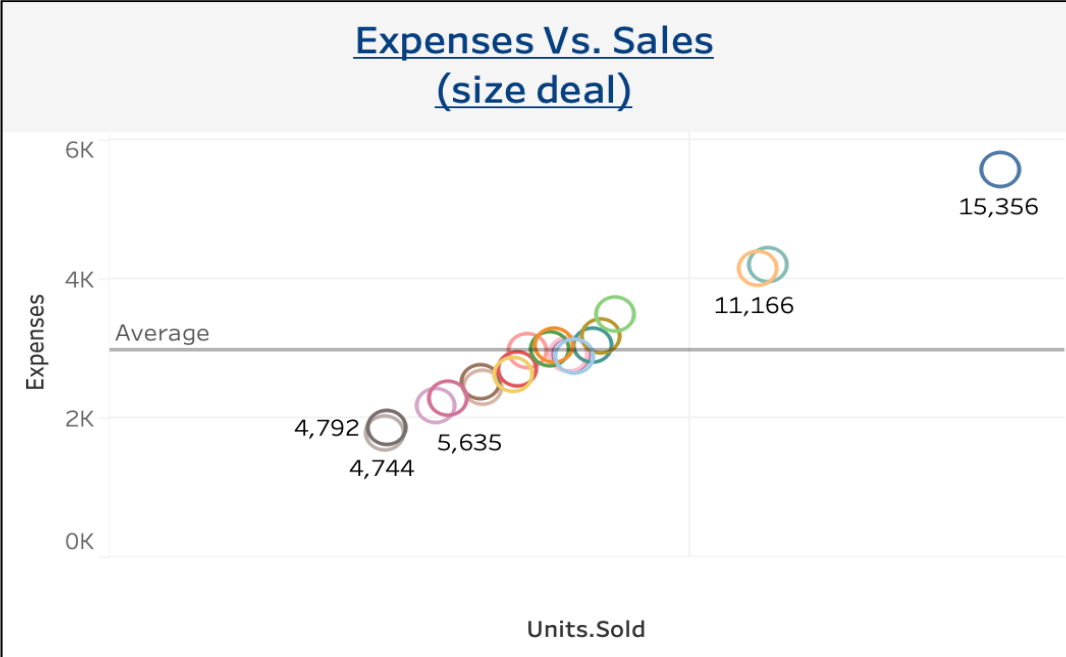

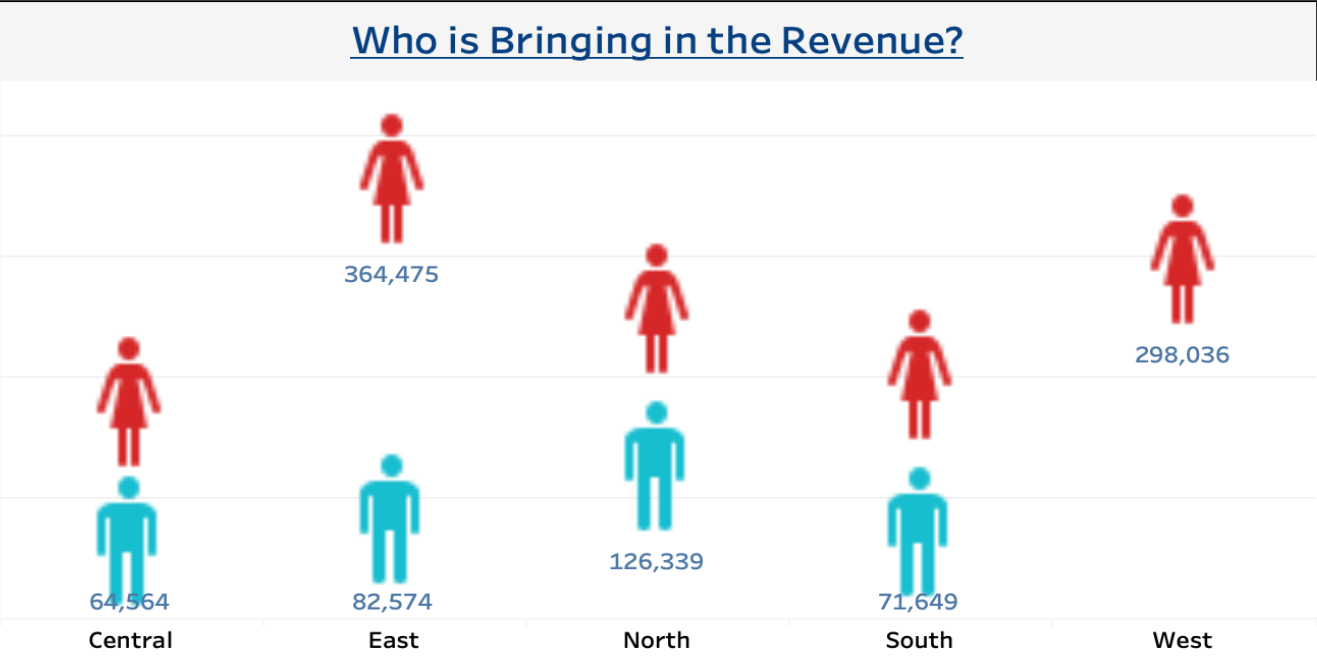

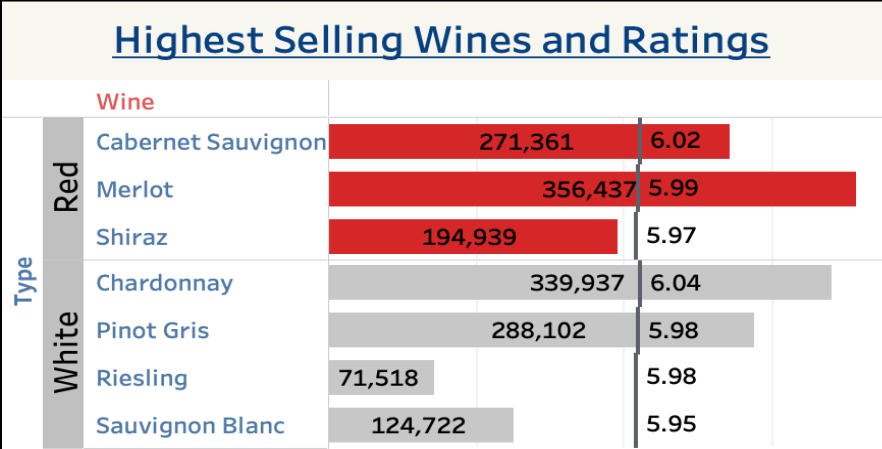

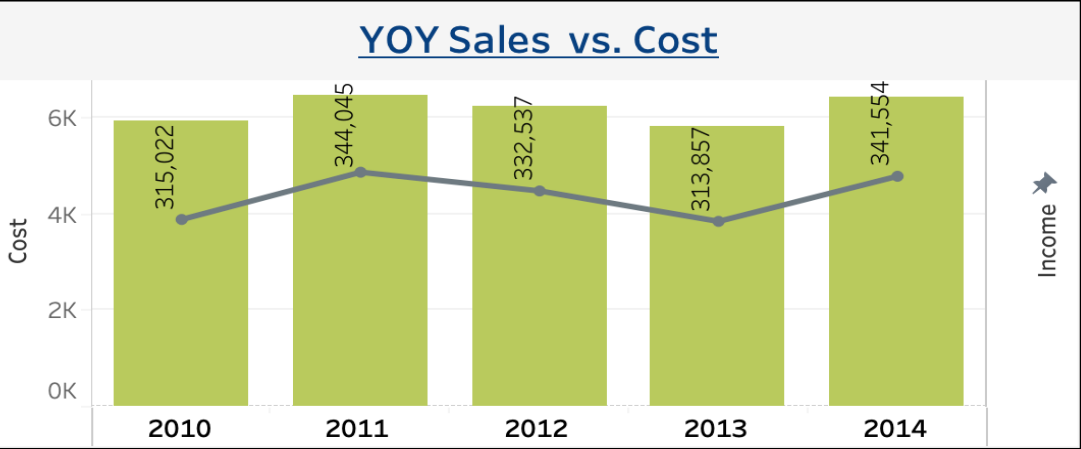

- By Region
- Sales Reps
- Types of Wines

Wine Sales- By: Monica Fam

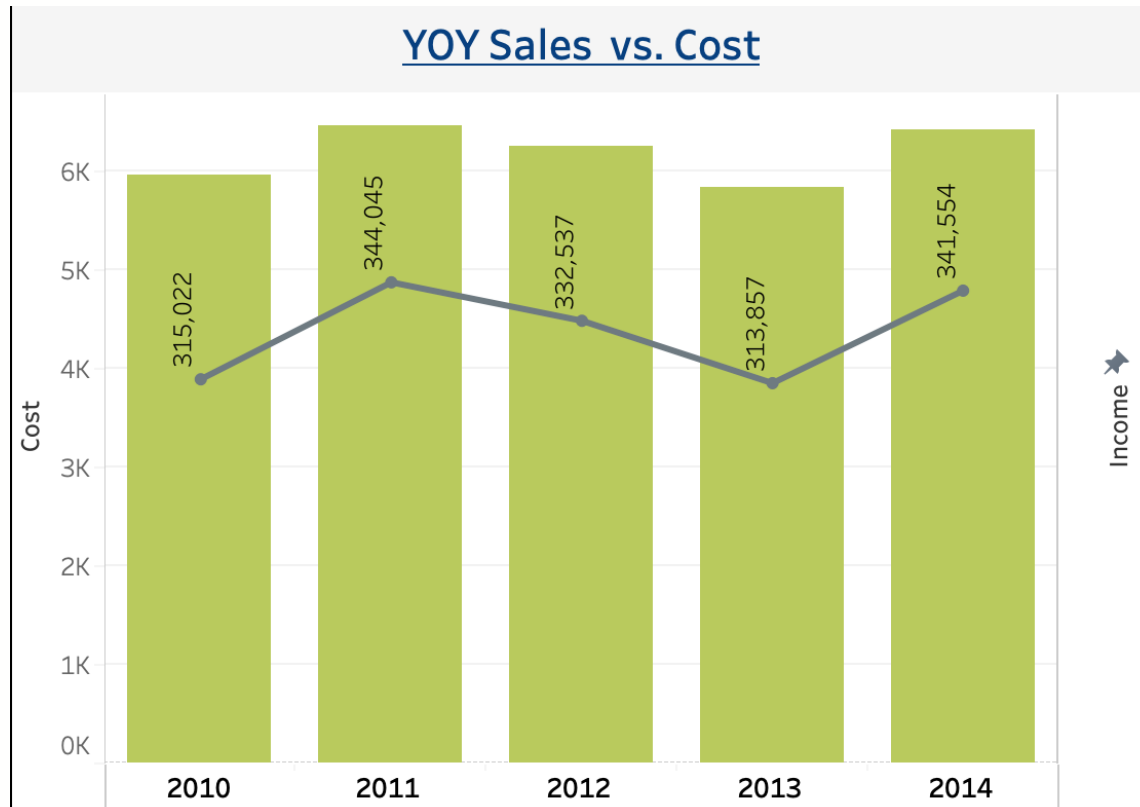

Rep.Region

All

Type
All

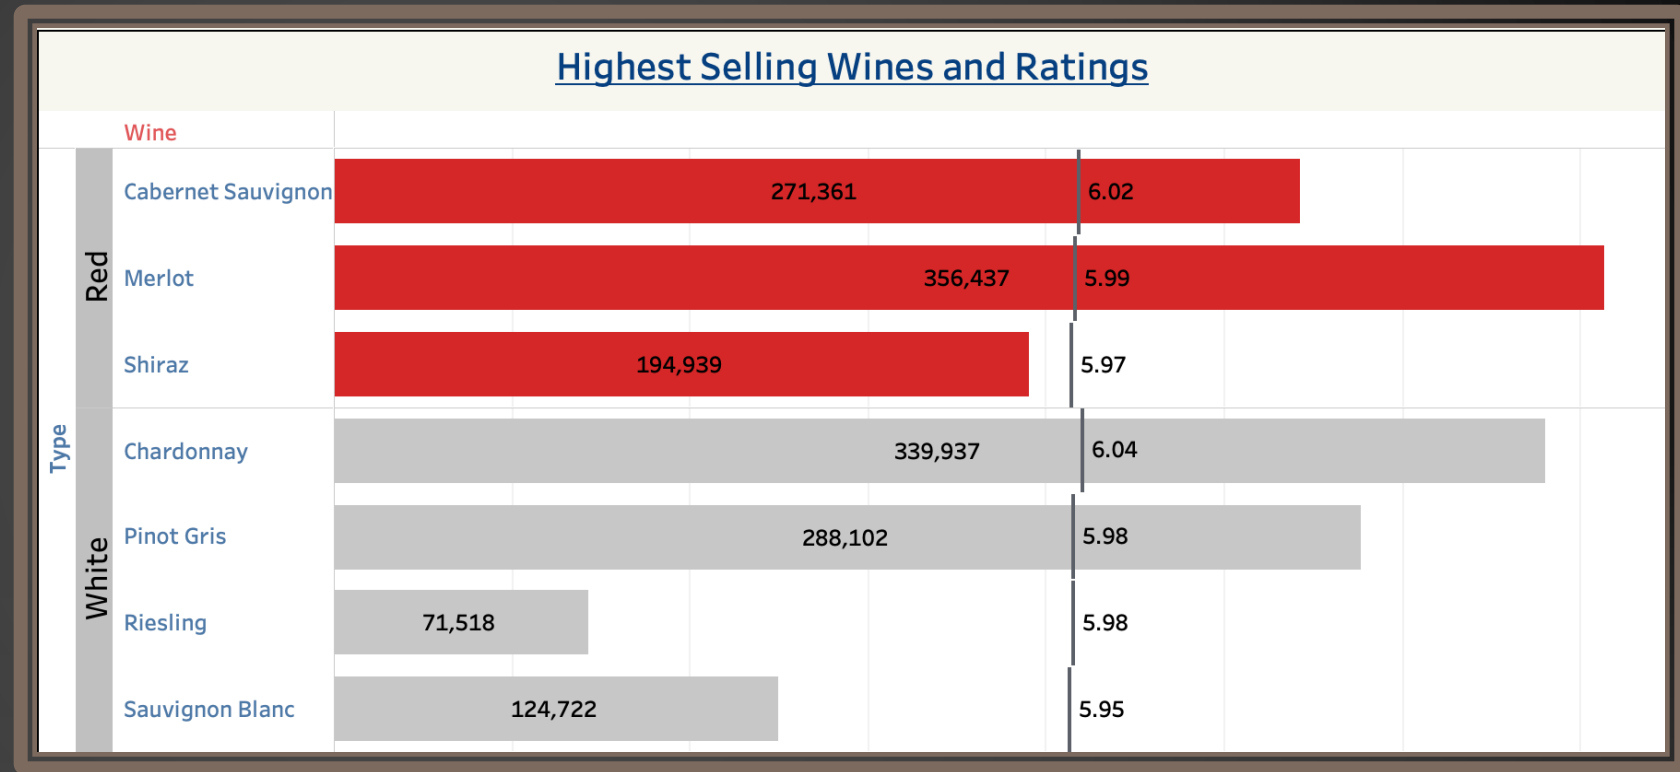

YEARLY SALES VS. COSTS

- Average Sales vs. Costs
- Graph shown depicts all regions
- Filter the data by region to analyze sales and costs to each independent region.

TYPES OF WINE

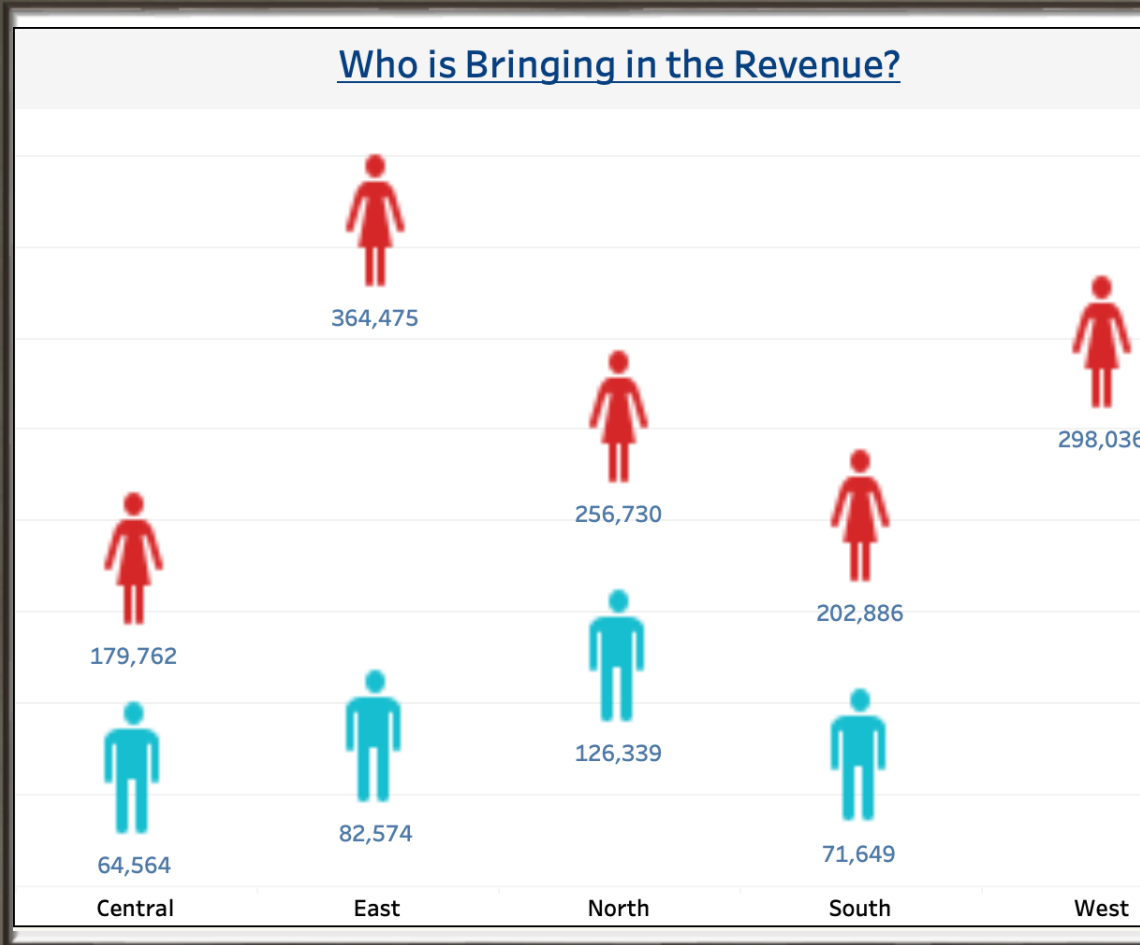

- Refine the wine selection through filters and observe the corresponding changes in the dashboard based on the chosen criteria.

A TEAM

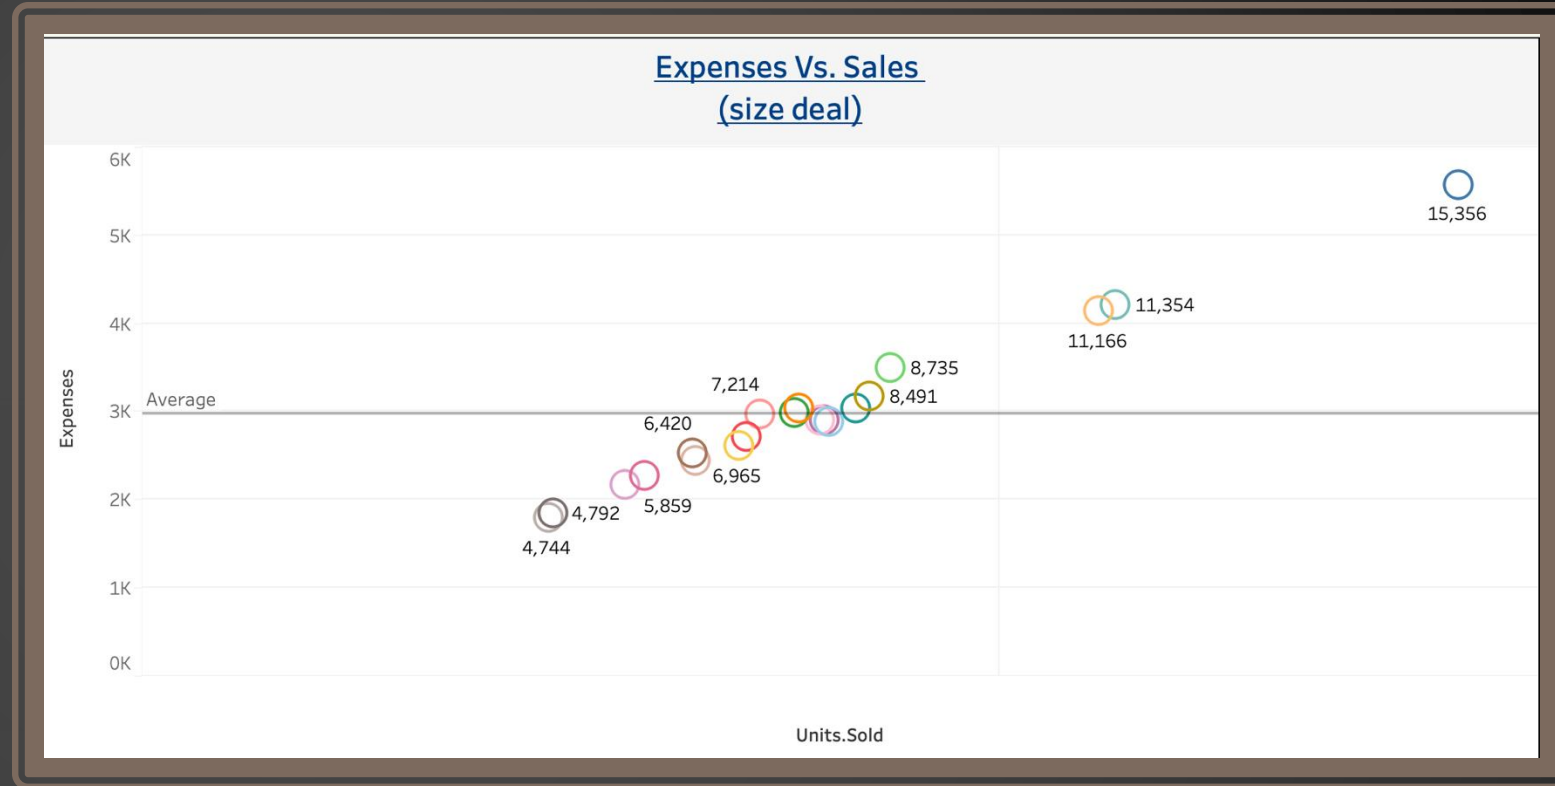

- The A-team consists of our top-performing representatives, excelling in sales across various regions, including both male and female members.
- Filterable by representative name and region.

Who is Bringing in the Revenue?

EXPENSES VS. COST

- Graph annotating the average expenses and units sold.
- Illustrates individuals above and below the average, highlighting the correlation between units sold and expenses billed to the company.
